Caribbean
ST. LUCIA

Designed in a Spanish Caribbean style, Cap Maison offers guests some of the most generously sized and beautifully appointed suites and ocean views in the Caribbean. Reflecting a passion for the Caribbean, from the highest quality linen to hand-made tiles and chandeliers, iron balustrades and wide verandahs, attention to detail is prominent. Rich fabrics complement stunning colonial-style décor while jalousie louvres welcome the island's breezes to permeate this ethereal setting.

Exemplifying service is to be expected at this truly luxurious boutique resort where standards are set higher than their guests' expectations. Guests can choose from in room experiences such as revitalizing spa treatments, intimate dining or even a cocktail party in their suite. Or guests can simply do nothing but sip a cocktail and stimulate their senses to the language of the sea from the comfort of their private terrace.

Spa Maison is a haven for self-indulging renewal treatments that revitalize the mind, body, and spirit. The Cliff at Cap Restaurant is a superb location with awe-inspiring panoramic views, serving as a backdrop to the sumptuous fares of the renowned chef, whose passion for the culinary arts is reflected in the cuisine.
