

SONEVA FUSHI

Soneva Fushi, in the North Baa Atoll region of the Maldives, is the ultimate island experience. A little off the beaten track, the adventure begins with a thirty-minute seaplane journey from Malé. Just sixty-five villas adorn the landscape on this island surrounded by a coral lagoon. Here, one may enjoy a community offering 'Intelligent Luxury' in which guests can find a host of activities available, or do nothing at all. The furnishings reflect the rustic theme of a designer tropical escape. Dining options range from simple barbecues to gourmet feasts - and an amazing wine cellar.

Ramble through nature with discovery excursions on the resort island and neighboring island villages. And all the while, you may luxuriate in the soft white sand. For those desiring pampering, there is the wonderful Six Senses Spa, offering a menu of rejuvenating and holistic wellness treatments to calm mind and body. Excellent diving opportunities are enhanced by a professional dive school. Experience the latest addition to Soneva Fushi's, the "Ever Soneva So Celestial" Observatory equipped with a striking Meade RCX400 telescope offering unique guest experiences and magnificent views into the starry sky in the organic garden. Stay for a week or stay for two, and prepare to be spoiled for a lifetime.

Profile: 65 rooms and villas (some with private pools) with DVD, children under 6 free in parents' room, library, boutique, Six Senses Spa, gym, pool, fully-equipped dive center, complimentary non-motorized watersports, tennis courts, volleyball, and bicycling. Located on an atoll 30 minutes by sea plane from Malé Airport (connect from US with nonstop flights through Europe, Dubai, Doha or Singapore). Open year round.
