

NORTH ISLAND

- ◆ Unique Island Ecosystem
- ◆ Live in Harmony with Nature
- ◆ Participate in Conservation Programs
- ◆ In-Villa Spa Treatments
- ◆ "Guided" Scuba Tours in the World's Longest Coral Reef System

North Island is a private sanctuary for guests seeking a slice of tropical island magic. The resort's 11 handcrafted villas measure nearly 5,000 square feet each, and are designed to provide a feeling of immense personal space, while epitomizing the concept of barefoot luxury. Each villa is provided with an electric buggy with which to explore the island and observe the unique giant tortoises, as well as numerous birds and exotic indigenous flora flourishing under the resort's conservation policy. There is a spa perched high above the beach with far-reaching views of the ocean. A dive and activity center can provide numerous recreational opportunities for those who have a yen for entertainment and exercise.

There is a 'no menu' concept of dining, wherein the chef confers with guests on their personal preferences and creates daily dishes with a Seychelloise Creole flavor. The resort has their own vegetable and herb gardens, as well as an abundance of seafood, fresh caught from the Indian Ocean, to provide the finest basics for your culinary pleasures.

Profile: 11 two bedroom villas with private plunge pool, luxury all-inclusive property, children under 3 free in parents' room, satellite TV, internet access, dining room, bar, spa, library, wine cellar, pool, scuba, snorkeling, kayaks, air-conditioned gym, bicycles, fly fishing, boating and island hopping trips arranged. Located 16 minutes by helicopter from Mahé Airport (connect from US with nonstop flights through Europe and Dubai). Open year round.
